## Ethical Will Overview

The musical *Hamilton* taught, “you have no control—who lives, who dies, who tells your story.” While the first two are true, the final one isn’t entirely out of your control. After all, the writing of an ethical will enables you to pass down your life lessons, hopes and dreams for the future, and what most inspired you in that way can be one of the most cherished and meaningful gifts you can leave to your family.

An ethical will is your chance to share with your family, friends, and/or community the things you valued most, what you believe defined your life, and what you want to make sure is remembered from your life. During the High Holy Day season, as we face our own mortality, there is no better time to explore the writing of an ethical will. An ethical will can be long or short and can be as personal as you are willing for it to be. To see some examples of ethical wills you can go to:

There is no better time than this High Holy Day season, when we find more time at home, to begin writing our ethical wills. While the next few pages will include some of the questions you might consider answering as part of your ethical will, some of the overarching questions to consider include:

- With whom would you want to share your ethical will?
- When would you want them to receive it?
- Does your ethical will reflect who you are or who you wish you were?
- Does it share what you wanted to share and teach what you wanted to teach?
- How much do you want to share?

And some guiding questions can include:
